## Optimized **slitting rings/perforating knives**

- Changes in the production process have enabled us to optimize the slitting rings and perforating knives. This results in less wear and an improvement in the quality of the products.
- Benefit now from the advantages of the optimized slitting rings and perforating knives!  
**Now available at MARKET-X.**

### **Slitting rings/perforating knives**

Installation location: commercial folder

The combination of slitting rings and these knives are ideally suited for commercial web press folders with O-ring folding rollers. Note, however, that the slitting rings can also be used advantageously individually on a wider variety of commercial web presses.

The clearance on the slitting ring improves the quality of the longitudinal perforation. This reduces the amount of dust and also reduces wear and tear of the perforating knife. The cutouts on the perforating knife prevent the perforation in the fold from bursting.

#### **Other uses on request or after technical clarification.**

Do you see potential for improvement? We improve spare parts according to your wishes!

**Customized. In quality. Price-wise.**
